Services

24 Hour Call Out Service

MSI is now available for 24 hour call-out service, because we know your business doesn't always need daylight to operate.

Custom Machining

MSI can also provide any custom cutting, chamfering, drilling, honing, lathe work, milling, tapping, or threading needed.

Vendor Managed Inventory

MSI can establish and supply custom bins at your company's location, maintaining stock of critical material and alleviating purchasing workload.

Consignment Inventory

You can request any number of items to be held in our warehouse, with any delivery timeframe you prefer, ensuring greater flexibility for your company's cash flow and resources.

Custom Packaging

Custom packaging work can be completed at MSI, instead of your own facility, allowing you to free up labor resources, production space, and time.
